Dear Parents and Well Wishers

It is with great pleasure we welcome you and your children to a new school year.

“Education is not the filling of a pail, but the lighting of a fire” -William Butler Yeats, (Poet, 1865-1939).

Happiness is just as important for a long life as a healthy diet and lifestyle. In a world of stress and immense competition we often ask the question- “how do we find happiness”. The answer to this ambiguous question is one simple answer - happiness comes from doing what we love and loving what we do. We believe that happiness and wellbeing should be at the heart of education.

As a catalyst of happiness, we seek to develop and teach our children the skills of happiness and how to flourish in and out of school. We aim to nurture the different facets of a child besides academic programmes. The school encourages all students to participate in a variety of co-curricular activities from dance, art and drama to a variety of sports to social work to environmental conservation activities. It is important for a child to explore and find their strengths in order to reach their true potential as a self-confident individual.

We, just like you, believe in holistic education for your child, encompassing - academics, co-curricular activities, sports education and life-skills learning. Our endeavor is to strike a balance between state-of-the-art infrastructure and an internationally acceptable education. We look forward to give the students every opportunity to succeed and celebrate with you their achievements. My wishes to all for a memorable and significant academic year ahead.
